

Libra+ Wirefree Chimes

Friedland's Libra+ is a stylish state-of-the-art range of wirefree chimes and pushes. It includes new functions to door chimes such as identification icons, analogue volume control and operating on the 868MHz FM frequency. Libra+ consists of a chime and push that will integrate with future Friedland products making it part of a much larger chimes and door entry offering.

- **Wirefree with portable and wall mounted options**
- **Operating range up to 200m***
- **Frequency of 868MHz FM which is a less crowded frequency, thus reducing interference**
- **Analogue (rotary) volume control**
- **Self-learning push to chime to avoid interference with neighbours' chimes**
- **Chime icons visually identify source of chime activation – a number of options are available including front door push and back door push**
- **CD quality sound**
- **2 year guarantee**

* Maximum range between push and chime. Note: Building structures e.g. metal and thick walls may affect transmission range.

Libra+ Wirefree Chimes
